Summary

Resourceful Support Programmer with over two years of experience in technical support, system implementation, and legacy system optimization. Proven ability to diagnose and resolve complex application, system, and database issues, with expertise in PHP, VB.NET, and SQL. Skilled in client onboarding, user training, and developing internal support tools using Laravel. Eager to leverage technical problem-solving and system stabilization skills to drive efficiency and client success at your organization.

Work Experience

Support Programmer, Emergence Systems and Solutions, Zamboanga City, Philippines

02/2025 – Present

- Spearhead system implementation and client onboarding processes for SME software solutions.
- Deliver comprehensive Level 1 and Level 2 technical support by diagnosing and resolving complex application, system, and database issues.
- Overhaul and optimize legacy PHP-based systems, specifically focusing on critical financial-related modules.
- Collaborate with development teams to scrutinize system bugs and institute functional enhancements.
- Facilitate seamless migration projects transitioning legacy PHP architectures to modern VB.NET platforms.
- Engineer internal support tools using Laravel to streamline issue tracking and boost operational workflow efficiency.
- Execute user training sessions and provide expert operational guidance to end-users.
- Mentor junior interns and provide support for departmental project coordination activities.

Technical Support Specialist, Emergence Systems and Solutions, Zamboanga City, Philippines

06/2023 – 02/2025

- Provided frontline technical support to resolve client-reported system challenges.
- Orchestrated the installation, configuration, and deployment of SME systems across client environments.
- Championed client onboarding initiatives and facilitated end-user educational workshops.
- Managed large-scale data migration activities, ensuring integrity and validation during system integration.

- Standardized troubleshooting procedures and documented workflows to improve team support processes.
- Resolved diverse client operational concerns through proactive system guidance and effective troubleshooting.

Education

Bachelor of Science in Information Technology, Database Systems, Mindanao State University - Buug Campus, Buug

2019 – 2023

- Graduated Cum Laude.
