PROFESSIONAL SUMMARY

IT professional with 3 years of experience in technical support, system implementation, and software development. Skilled in PHP, Laravel, VB.NET, MySQL, and system deployment workflows. Experienced in troubleshooting application, database, and system issues, stabilizing legacy systems, conducting client onboarding and user training, and developing internal tools that improve operational efficiency. Seeking to contribute technical support, troubleshooting, and system implementation expertise while continuing to grow in software development and enterprise application support.

TECHNICAL SKILLS

Programming Languages: PHP, VB.NET, JavaScript, HTML5, CSS3, SQL

Frameworks: Laravel, Tailwind CSS

Databases: MySQL, SQL Server

Tools and Platforms: GitHub, Git, Visual Studio, VS Code, phpMyAdmin, SQLYog, Microsoft Office

Technical Support: Level 1 & Level 2 Support, Incident Troubleshooting, System Deployment, Client Onboarding, User Training, Issue Escalation, System Testing, Legacy System Stabilization, Technical Documentation

Data Management: Data Migration, CSV Import and Export, Data Validation, Database Alignment

EDUCATION

Bachelor of Science in Information Technology, Major in Database Systems

Mindanao State University - Buug Campus, Buug, Zamboanga Sibugay

2019 - 2023

Graduated Cum Laude

PROFESSIONAL EXPERIENCE

Emergence Systems and Solutions - Zamboanga City, Philippines

Support Programmer | February 2025 - Present

- Lead system implementation and client onboarding for SME software solutions.
- Provide Level 1 and Level 2 technical support by diagnosing and resolving application, system, and database issues.
- Stabilize and optimize legacy PHP-based systems, including financial-related modules.
- Coordinate with developers to troubleshoot system bugs and implement enhancements.
- Participate in migration projects from PHP-based systems to VB.NET platforms.
- Develop internal support tools using Laravel to improve issue tracking and workflow efficiency.
- Conduct user training sessions and provide operational guidance to system users.
- Mentor interns and assist in project coordination activities.

Technical Support Specialist | June 2023 - February 2025

- Delivered first-line technical support and resolved client-reported technical issues.
- Installed, configured, and deployed SME systems for client operations.
- Conducted client onboarding and end-user training sessions.
- Managed data migration activities and validated data accuracy during system integration.
- Documented troubleshooting procedures, workflows, and support processes.
- Assisted clients with system usage, issue resolution, and operational concerns.

PROJECT EXPERIENCE

Digital Library System - Main Developer (Capstone Enhancement Project)

- Developed and enhanced a scalable institutional library operations platform using PHP and Laravel.
- Implemented circulation tracking, borrower management, audit logging, reporting, and role-based access control.
- Integrated PDF export, barcode generation, and Excel import and export functionalities.
- Designed relational database structures and optimized transaction workflows.

Shipyard Enterprise System - Developer Collaborator (Company Project)

- Contributed to an enterprise shipyard operations system using VB.NET.
- Developed vessel registry, tariff management, and project management modules.
- Assisted in operational workflow stabilization, testing, and user training.
- Supported modules for inventory, procurement, financial operations, and wharfage monitoring.

CORE COMPETENCIES

- Troubleshooting & Analytical Thinking
- Technical Documentation
- Client Communication
- Cross-Team Collaboration
- System Implementation
- Adaptability & Continuous Learning
- Problem-Solving
